PUBLIC POLICY ANALYSIS AND IMPLEMENTATION

13TH – 16TH JUNE 2016

VENUE TBA
KOROR, PALAU

The Bureau of Public Service System is excited to announce an opportunity to attend the first **Public Policy Analysis and Implementation Workshop** facilitated by Mata'afa Dr. Desmond U. Aмоса, Regional Adviser at the Pacific Islands Centre of Public Administration (PICPA) of the University of South Pacific.

This four-day workshop targets **senior officials** (Director, Chief, and Administrator Level) in the public service who are mainly responsible for conducting public policy analysis and advice. The main aim is to address the gaps in policy analysis in order for policy analysts to adopt an approach that adds value to policy analysis.

In doing so, the workshop focuses on **three main components**:

1. Concepts and fundamentals of policy analysis;
2. Approaches for conducting policy analysis; iii. Policy analysts' styles, values, and ethic;
3. Policy implementation.

At the end of the workshop, participants are expected to:

- understand the public policy cycle and fundamentals of public policy;
- be familiar with the policy analysis/development model and be able to apply it at the workplace or the trade sector;
- provide quality policy recommendation/advice;
- be aware of their policy analysis styles, bias, values and ethics of developing policy;
- be able to work out policy implementation plans and timelines;

Based on the number of seats available for the workshop, the BPSS has allotted a certain number of seats per Ministry/Office. Please see attached a sign-up sheet, and submit the names of the participants to Chief Terra Sairong Nabeyama at bpss@palaugov.org or calling 680-488-4776 **by or before June 9, 2016** to guarantee a seat in the workshop. Thank you and we look forward to seeing you!

Kom Kmal Mesulang!

Best regards

Umerang A. Imetengel
Director, Bureau of Public Service System (MOF)
