1) GDP, GNI and GNDI are at purchasers prices.

2) Average of GDP(P) and GDP(E).

3) Refer to Balance of Payments tables for breakdown of primary and secondary income flows.

4) US Federal and other grants not passed through the Government of the RoP may be understated.

5) Changes in real income due to terms of trade effects. Estimated as current exports times the difference between the reciprocal of import and export prices.

6) Primary, Secondary income and capital grants are deflated by the GDP Implicit Price Deflator.

7) Income comparisons between countries should be made using Purchasing Power Parity (PPP) rather than US\$. However, these measures are not available for Palau.
